

— Android Engineer (m/f)

Berlin, Germany

We get truly excited about hiring you, if you:

- can demonstrate experience delivering great Android Apps
- have worked with BTLE before
- passionate about engineering and a creative coder
- want to proactively be engaged in feature and roadmap discussions value pragmatism and deliver high quality code
- cannot imagine code that is untested love working in cross-functional teams speak fluent English
- write, speak, think and dream in German and English

What you will be working on:

- We already have an iOS version on the App Store and your task will be to get the Android App up to speed. We currently have an alpha version, but there is much potential to polish it, make it slick and compatible with all the devices out there. With your experience and skills, we want to be on par with iOS and implement up and coming new features at the same time.

What you can expect:

- Working with the best eScooter in the market!
- Agile Development, not Scrum by the Book
- Interdisciplinary teams – share an office with design, backend and iOS and learn beyond your area of expertise Joining our adventure in becoming the global market leader in eScooter mobility
- A brand-new office in the center of Berlin (Friedrichstrasse)

*In case you are interested please send your application to jobs@joincoup.com.
Feel free to get in touch in case you have questions regarding your application.
We are looking forward to hearing from you!*

COUP brings the joy back to urban commuting. Riding our fleet of shared eScooters is fun while saving you time and money. We are making swift door-to-door mobility the new normal.

We launched in summer 2016 as a subsidiary of Robert Bosch GmbH with our headquarters in Berlin. Our team of entrepreneurs, designers and engineers, is looking to grow in 2017.
