

— Senior Frontend Developer (m/f)

Berlin, Germany

We're looking for a friendly frontend developer to join COUP. You'll join as a valuable part of an ambitious, interdisciplinary and open minded engineering team – and work on nothing less than shaping the future of shared, electric mobility.

We get truly excited about hiring you, if you:

- have a solid understanding of the core JavaScript language.
- are experienced in writing modern JavaScript (ES6+).
- have a deep familiarity with the React ecosystem (Redux, Sagas etc).
- are fluent in HTML5 and CSS3.
- have 4+ years of relevant work experience.
- Advanced understanding of the DOM, events, closures, functional and asynchronous programming.
- Basic knowledge of typography and design.
- Server-side development experience (Node, Rails).

What you will be working on:

- Laying the technical foundation for the next generation of the toolchain for COUP and its partners.
- Building an integral part of our fleet management system from the ground up.
- Close collaboration with our product, design and backend teams.

What you can expect:

- No legacy code.
- State of the art frontend technology (no need to support old browsers).
- Great working conditions, loads of free COUP rides & a fun workplace.
- High impact and responsibility in a very successful and fast growing company.

In case you are interested please send your application to jobs@joincoup.com.

Feel free to get in touch in case you have questions regarding your application.

We are looking forward to hearing from you!
