

— Quality Assurance (QA) Tester eMobility

Berlin, Germany

About COUP:

COUP is bringing the fun of driving back into urban areas. As a wholly owned subsidiary of Robert Bosch GmbH, the eScooter sharing service started a new business area in the field of mobility services in August 2016. The electric scooters enable users to save time in city traffic and are a fantastic addition to existing mobility services provided in central areas. The eScooters are available in a number of major European cities, including Berlin, Paris and Madrid. They can be used around the clock and are easy to find, reserve and drive. They are a flexible and affordable alternative to public transport and cars.

What you will be working on:

As a QA Tester at COUP you will overtake an important role for the design, development as well as the support of our frameworks for test infrastructure and provide automation expertise to our development teams. You will be in the lead to set up a testing strategy for all platforms including automated and manual testing. You will work closely together with cross functional agile teams and coach our engineers and product managers to define testing strategies, criteria and processes.

Responsibilities

- Draft and execute test plans for performance and load testing
- Materialize cross browser and device tests using automation scripts
- Find, track, reproduce, and document bugs
- Interpret and report testing results
- Estimate, prioritize, plan and coordinate testing activities
- Establish KPIs and best practices for testing
- Organize testing sessions with our teams
- Maintain testing devices
- Testing functionalities between native Apps (iOS, Android), Web, Backend and Scooter (offline)

We get truly excited about hiring you, if you:

- Gained 3+ years experience in a Mobile QA Tester role
- Bring a deep understanding of mobile applications and mobile platforms
- Have strong analytical, troubleshooting and problem-solving skills
- Are familiar with the execution of test cases for mobile apps, web as well as hardware products
- Pay attention to details and set high quality standards
- Have a strong understanding of testing methodologies and quality management tools
- Passion for hunting bugs and IoT topics in general
- Experience with automation testing would be an advantage

What you can expect when joining COUP:

- Joining our adventure in becoming the leading global platform in shared urban mobility
- Working with a very strong team and the best eScooter in the market
- Flat hierarchies, numerous social events and opportunity to work with highly skilled, cross-functional teams
- A brand-new office in the center of Berlin (Friedrichstraße).
